VOL. XXVI, NO. 232 GAINESVILLE, FLORIDA, THURSDAY, NOVEMBER 4, 1909 TEN CENTS A WEEK

GOMPERS ET AL. HELD GUILTY OF CONTEMPT

Court of Appeals for District of Columbia Affirms Sentence of Labor Men.

WASHINGTON, D. C., Nov. 3.—The decree of the District of Columbia adjudging President Samuel Gompers, Secretary Frank Morrison and Vice-President John Mitchell, of the American Federation of Labor, guilty of contempt of court, in the Buck's Stove and Range Company case, was affirmed yesterday in the Court of Appeals for the District of Columbia. The case will now be taken to the Supreme Court of the United States.

Chief Justice Sheppard dissents from the opinion of the court on constitutional grounds. The court held that the fundamental issue is whether the constitutional agencies of government should be obeyed or defied. The mere fact that the defendants were the officers of organized labor in America, said the court, lent importance to the cause and added to the gravity of the situation, but it should not be permitted to influence the result.

Must Obey the Courts.

"If an organization of citizens, however large," the court held, "may disobey the mandates of the court, the same reasoning would render them subject to individual defiance. Both are subject to the law and neither is above it. If a citizen, though he may honestly believe that his rights have been invaded, may elect when and to what extent he will obey the mandates of the court and the requirements of the law as interpreted by the court, instead of pursuing the orderly course of appeal, not only the courts, but the Government itself would become powerless and society would be reduced to a state of anarchy."

The action of the Supreme Court of the District of Columbia in sentencing Samuel Gompers, John Mitchell and Frank Morrison, of the American Federation of Labor to twelve, nine and six months imprisonment in jail, respectively, was the result of the failure of these three defendants to obey the order of the court, directing them to desist from placing the Buck's Stove and Range Company of St. Louis, Mo., on their unfair list in the prosecution of their boycott against the corporation.

Boycott Results.

While the name of the corporation was removed from the unfair list of the federation, Messrs. Gompers and Mitchell continued to keep alive the boycott by frequent references to it in The Federationist, the official organ of the federation. Mitchell was involved in the trouble by reason of his membership on the executive board of the federation and because it was alleged he had made no effort to prevent the adoption of a resolution at the convention of the United Mine Workers of America in antagonism to the Buck's Stove and Range Company. The result of the boycott, it was said, was to cause a decline in the business of the stove and range company of 50 per cent.

The boycott placed by the federation against the products of the Buck's Stove and Range Company grew out of a fight made by the metal polishers union and supported by the federation for an eight instead of a nine-hour day. This was resisted by the company and The Federationist published the name of the Buck's Stove and Range Company under the caption of "We Don't Patronize."

Gompers Hurrying to Washington.

New York, Nov. 3.—President Samuel Gompers of the American Federation of Labor issued a statement in regard to the decision.

"With all due respect to the majority of the court I cannot surrender constitutionally guaranteed rights because a judge will issue an injunction invading and denying these rights. Chief Justice Sheppard's dissenting opinion is in defense of the constitutional and inherent rights. Minority opinions of courts in the past in which human rights have been invaded have ultimately prevailed, become the law of the land and the generally accepted rule of life, and I have an abiding faith that the rule in this case will prove no exception.

"If I must go to jail I shall have the consciousness of the fact that other men have in the past been compelled to suffer in defense of justice and right in the cause of humanity and for the maintenance of human liberty.

"I intended to stay over here tomorrow to finish up my report for the annual convention at Toronto and also to attend the wedding of the daughter of a very dear friend of mine, but I am going to change my plans and shall leave so I can get into Washington as soon as I can. I want to be within the jurisdiction of the court, whatever disposal is made of the case."

Vancleave Talks of Decision.

St. Louis, Mo., Nov. 3.—J. W. Vancleave, president of the Buck's Stove and Range Company, in a statement concerning the decision in the case of Gompers, Morrison and Mitchell, said:

"The assault upon me by the American Federation of Labor in 1906 was plotted in cold blood. I was assailed not as an individual, but as president of the National Association of Manufacturers. The Federation did this in order to show its power. It aimed to strike terror into everybody outside its own ranks—workers, employers and the general public alike, and to coerce the President of the United States, the Congress and the courts, Federal and State, to do its bidding.

"It must be remembered that these men are not convicted because of their attempt to destroy the business of the Buck's Stove and Range Company, but because they openly defied the order of the Federal court."

Tendered a Free Ride.

The Gainesville Automobile Association tendered a ride to the commissioners on Wednesday morning when they visited the road over the proposed endurance route between this point and Micanopy. This was done to show the commissioners the necessity of better roads for the accommodation of the automobile as well as the regular teams, and the special order of the board on Tuesday shows that they will at once commence the work of getting the thoroughfares in better shape.

RATTLESNAKE VENOM KILLED BY ANTI-TOXIN.

NEW YORK, Nov. 3.—The efficiency of an anti-toxin for rattlesnake venom, which is kept in stock at the Bronx Zoo, is credited with having saved the life of Albert Pierce, the snake charmer, who was bitten by a large rattlesnake in the museum on Sunday. After having been bitten Pierce's hand became swollen and a few hours later in a hospital he became delirious. The anti-toxin was administered into the abdominal cavity, and the result was that the effect of the poison was quickly neutralized, and while at one time it was believed that Pierce would quickly die, he will now recover completely.

JUDGE GAYNOR ELECTED; TOM JOHNSON DEFEATED

Tammany Lands Candidate for Mayor of New York But Cleveland Went Back on "Tom."

NEW YORK, Nov. 3.—Judge William Gaynor, Tammany's nominee for mayor, won a great victory over Judge Bannard, the Republican, and William Randolph Hearst, the Independent candidate. Hearst's race was a poor one, as he had about 150,000 votes against 245,000 for Gaynor, while the Republican nominee had about 175,000. Gaynor's personal popularity and his championship of a liberal Sunday brought many thousands to his support.

Gaynor, however, failed to carry his ticket with him, as the Republican-Fusion forces will control absolutely the board of estimate and apportionment, which will disburse approximately a billion dollars during the administration. This is more than half a defeat for Tammany, for the control of the board of estimate was one of the principal issues of the campaign.

In addition, the Republican-Fusionists elected Charles S. Whitman district attorney of New York county, who defeated George Gordon Battle, the Democratic nominee, by at least 13,000 plurality, and John S. Shea for sheriff over Christopher D. Sullivan (Democrat) by approximately 10,000.

Tom Johnson Defeated.

Cleveland, O., Nov. 3.—Thomas L. Johnson, four times mayor of this city, was defeated yesterday for the fifth term by Herman Baehr, the Republican candidate. The latter is the first Republican to be elected mayor in ten years. Mayor Johnson announced that he will be a candidate again four years hence. Baehr's majority will exceed 4,000.

Indianapolis Republican.

Indianapolis, Ind., Nov. 3.—Samuel Lewis Shank, Republican candidate for mayor, won his race by about 1,200 majority. The Republicans were also successful in Evansville, Fort Wayne, Richmond and Crawfordsville. The Democrats carried South Bend, Muncie, LaFayette and Terre Haute.

The Cincinnati Contest.

Cincinnati, O., Nov. 3.—Dr. Louis Schwab was re-elected mayor of Cincinnati yesterday, defeating J. T. Peck, Democratic nominee, by a small majority.

Results in Virginia.

Richmond, Nov. 3.—Judge William Hodge Mann, of Nottoway, Democrat, was elected Governor of Virginia yesterday over William P. Kent, of Wytheville, Republican. He carried the entire Democratic ticket with him, the Republicans not making a serious contention for a single office.

Pennsylvania.

Philadelphia, Nov. 3.—Pennsylvania selected the Republican candidates for State treasurer, auditor-general and judge of the Supreme Court in yesterday's election, and Philadelphia

Auto Will Be Equipped With Six Cast-Iron Wheels

LOS ANGELES, Cal., Nov. 3.—Six wheels with cast-iron rims have been rigged to a big six-cylinder Premier automobile which will be used on a railroad track for carrying passengers from Chancelor to Stone Canon, Cal. It is the first time that a motor track has ever been planned.

This novel scheme was designed by Walter Chanslor of the firm of Chanslor & Lyon of Los Angeles. The two towns are situated in Central California. Chanslor is about two miles from Paso Robles; Stone Cannon is 22 beyond and is cut off from railroad communication and has no stage. The motor car will be brought to the aid of its citizens. Over a roadbed which has been carefully prepared, the big Premier will make regular trips from town to town, and seven passengers can be carried at a trip. This service will place Stone Canon on the map and its citizens in communication with the outside world by other means than the laboring burro.

When the auto line was proposed by Chanslor, who has large holdings in the town, the residents there were enthused over the proposition, and a right-of-way 22 miles long was speedily granted. Spur tracks will be put in and freight service to the mines will be maintained shortly. Long stretches of deep sand intervene between the towns of Paso Robles and Stone Canon, and it takes many hours to make the trip by wagon. The motor car will make the trip in an hour or even less, which means that Stone Canon people are brought about 12 hours closer to civilization by this most modern form of transportation.

Crazed Man Beheaded Wife and Daughter

POTTSVILLE, Pa., Nov. 3.—One of the worst tragedies that has ever shocked this county occurred at Pine Grove, near here, Monday night, when Daniel Schoke, a butcher of that place, cut off the heads of his wife and twelve-year-old daughter, and then committed suicide by shooting himself.

The ghastly discovery was made yesterday when neighbors found Schoke lying on the first floor and the bodies of the wife and little girl in a bed on the second floor. The daughter's head was entirely severed and had rolled away from the body, but his wife's head hung simply by the vetebrae. A large butcher knife on the floor showed how the murder had been committed.

It is believed he worried himself insane over business reverses.

Taft Party and Circus Folks Engaged in Battle of Wits

BIRMINGHAM, Ala., Nov. 3.—For an hour or more before leaving Jackson, Miss., early yesterday morning President Taft's special train was parked in the railroad yards immediately alongside one of the sleeping car trains of the three-ring circus which played in Jackson as an opposition attraction to the President on Monday.

It was not long before an acquaintance had been formed aboard the two trains and for a time the conversation ran from window to window like this:

"We play in Yazoo tomorrow, where do you play?" asked a representative of the circus, addressing one of the Presidential party.

"We play in Columbus in the afternoon and Birmingham at night with a street parade in both places," came the reply.

"We played Columbus yesterday."

"How was business?"

"Bully."

"We get the crowds wherever we go," boasted a Presidential one-night stander.

"But we get the money," came back the circus man amid the applause of his associates.

"Yes," put in a lady bareback rider, "and you only have a one-platform show and a band in the parade. We have a band all the time."

"If it was not for the one 'main guy' you would not have a show at all," chimed in a sad and serious visaged individual through one of the windows of the yellow circus train. He was the leading clown.

The bombardment from the three-ring show became so heavy that the Presidential adherents gave up the task of further comparison, and all hands parted company with expressions of great delight that the circus was going into winter quarters in two weeks, and that the President's troupe was quitting the road in ten days.

Girl Stole Black Dress For Father's Funeral

CINCINNATI, Nov. 3.—Because she is alleged to have taken a quantity of black silk goods with which to make a dress of mourning colors to wear at the funeral of her father, who lies dead in Covington, Ky., Miss Mamie Schmidt, 26 years of age, was arrested in a department store in this city by detectives yesterday and taken to the House of Detention, where a charge of petit larceny was lodged against her. The young woman wept bitterly, saying it was her first offense. It is probable that the charge will not be pressed.

ELECTION CAUSE OF TROUBLE IN KENTUCKY

TWO MEN KILLED IN THAT STATE TUESDAY.

A Number of People Were Injured as Result of Riot at Jellico.

JACKSON, Ky., Nov. 3.—Predictions made on the streets early yesterday that only a "man or two" would be killed during the voting in Breathitt county were justified at noon in the Spring Fork precinct and in a dramatic manner.

Tilden Blanton, with his left hand, shot and killed Demosthenes Noble after Noble had crippled Blanton's right arm with a bullet. Noble had previously, according to Blanton, placed a pistol at the breast of two of Blanton's brothers. Noble was a member of a powerful feudal family, a former employe of Judge Hargis, and complications are expected.

Blanton, whose father was Democratic candidate for county attorney, was acting as challenger. The shots were fired while Blanton was leaning from the window of the voting place. He was carried into Jackson to the home of his father and there he was arrested.

Seven Bullets Find Would-Be Slayer.

Jellico, Tenn., Nov. 3.—James Ayres, former marshal of Jellico, Ky., was killed and several others were more or less seriously wounded during an election riot at the voting place in that town yesterday afternoon.

The trouble originated in an encounter between Rufe Thompson and Walter Perkins. The fighters were surrounded by a large crowd of onlookers through which Ayres broke to interfere for his friend, Perkins. Ayers drew a pistol on Thompson, but before he could shoot probably a dozen shots were fired and Ayers fell dead pierced by seven bullets.

A general riot followed and a number of shots were fired. Thompson was wounded in one arm, while Perkins was badly beaten about the face and head. A son of Police Judge Stewart of Jellico, Ky., was wounded in one leg, while others were injured before the riot was quelled.

A little more than two years ago, Ayers killed Sampson Bolton over the former's wife. He was sentenced to two years in the penitentiary for the killing and served the time, returning to Jellico only about a month ago. Ayers was 30 years old.

Two sons of Bolton, who were in the crowd, were arrested, as were several other participants.

SHOT WHILE HUNTING.

Fleshy Part of Arm Was Torn Away While Duck Shooting.

Report was received in this city yesterday that Thaddius Hague, one of the prominent young men of the Hague section, had been accidentally shot while out hunting for duck on Tuesday evening.

It was stated that he leaned his gun up against some brush and the gun being too heavy for the small support, fell to the ground, discharging the contents of one barrel which took effect in his arm, completely tearing away the fleshy part of the member.

At last accounts the young man was resting as easy as possible under the circumstances, and it was thought that his entire arm could be saved, which will be gratifying to his numerous friends.

Fayette and Greene counties in Pennsylvania are interested at the prospect of the Monongahelia railroad being extended from its terminus at Martin over into Greene county. Such an extension would be Greene county's first railroad to develop the thousands of acres of coal land, much of which has been sold to coal and coke operators since the coke boom started up again. Engineers have been stationed at Martin and New Geneva, and are mapping the country and running lines.

JUDGE GAYNOR ELECTED; TOM JOHNSON DEFEATED

(Continued from Page One.)

overwhelmed the reform opposition to the local Republican organization, electing the latter party's entire county eicket by a majority of more than 43,000 in one of the heaviest votes ever polled. Majorities for the victorious ticket in the State will reach nearly 150,000. The proposed amendments to the State constitution abolishing spring elections were generally ignored, but were adopted by varying majorities.

Louisville's Fight.

Louisville, Ky., Nov. 3.—In the municipal election here the Democrats carried this city by electing W. O. Head mayor by over 2,000 majority. John E. Grinstead, the Republican candidate, has been mayor for two years, and sought re-election. The race issue was the paramount one, there being 10,000 negro voters in the city who supported the Republican ticket. The labor vote rallied to Head in the last days of the campaign, and to them is due the victory.

Owen Tyler, the Independent Democratic nominee, made a very poor showing, as it was generally understood that he was running in order to aid the Republicans.

The good roads amendment throughout the State carried, and the Democrats have secured a majority in both houses of the Legislature and will likely pass an election law which will aid the Democrats in future elections.

In Famous Feud Town.

Jackson, Ky., Nov. 3.—Although a dynamite bomb was exploded and thousands of shots were fired in last night's wild election celebration, only the walls and plaster were damaged.

D. B. Redwine, Democrat, apparently has carried the county by 350 votes for circuit judge over J. P. Adams, incumbent. Other Democratic candidates for all offices also appear to be leading.

Today the military here was reinforced by the arrival of Lexington soldiers stationed at Crocketsville yesterday. The band of celebrating mountaineers was also increased.

MARSHAL DELL PROVES ACTIVE FOR "TIGERS"

MAKES HIS FIRST ARREST FOR OFFENSE TUESDAY EVENING.

Mayor Davis Assessed a Fine of $50 and Costs on the Defendant, Jeff Simons.

City Marshal Dell has gone after the "tigers" and lander his first man on Tuesday evening, when he arrested Jeff Simons, charged with selling booze.

The Marshal stated that he had good reason to believe that a large number of darkies were selling booze in violation of the law and for the past week he kept a close watch-out for this class of offenders.

He has devised a well-laid plan to catch up with this class of people and his first effort worked to suit him, with the result that he was successful in catching the man, not only with the whiskey, but the money and all, and even saw the transaction as it passed.

Jeff was arraigned before Mayor Davis yesterday morning upon the charge and after hearing the evidence in the case, the Mayor deemed that he was guilty and imposed a fine of $50 and costs, but allowed the defendant freedom in order that he may raise the money with which to pay up, and advised him that it would be unsafe for him to appear again under such a charge.

During the years Simons has been here he has been engaged in the fish and oyster business, and at times conducted a restaurant. He has apparently carried himself in an upright manner, and it was this that caused the judge to be lenient with him.

The Value of Good Digestion

Is easy to figure if you know what your stomach is worth. Kodol keeps the stomach at par value, by insuring good digestion. Kodol cures Dyspepsia.

Kodol insures good digestion by absolutely duplicating Nature's normal process, in perfectly digesting all food taken into the stomach.

While Kodol is doing this, the stomach is resting—and becoming strong and healthy. A strong and healthy stomach guarantees a sound and active brain.

The man with a sound stomach—a stomach that is doing for the body just what Nature intended it to do—is the man who is always prepared for any emergency. He is "there with the goods."

The man with a sick stomach, is a man sick all over. When the stomach is irritated by undigested food, the blood and heart are directly affected. Then dullness, unnatural sleepiness, sick-headaches, vertigo and fainting spells, and even serious brain trouble develop. Kodol will prevent these.

Spurring the stomach and brain to special effort by "tonics" and "stimulants" doesn't cure anything, or accomplish any good. Neither does dieting. Indigestion and the serious ailments which it induces can be averted and corrected only by natural means.

Kodol supplies this natural means. It performs the stomach's work for it—just as the stomach should perform it—while the stomach takes a little rest, "for the stomach's sake."

ACCIDENTAL KILLING AT SANTA FE TUESDAY

GUN BLOWS J. L. CHESSER'S HEAD FROM HIS BODY.

Was in the Act of Handing the Weapon to a Friend When It Was Discharged.

Information was received here yesterday of the accidental death by shooting of J. L. Chesser, which occurred near Santa Fe late Tuesday evening when he, in company with other employes of the Sutton Lumber Company, were en route to their homes.

Mr. Chesser and his brother had a contract for getting out saw logs for the mill and as was their usual custom went by the mill to report their day's work before going home. J. L. Chesser had always carried with him a small single-barrel shot gun and it was his own instrument which caused his sudden death.

It was stated by the brother of the deceased that just as he went to hand the gun to a Mr. Webb the same was accidentally discharged, the entire load taking away the top of his head, this occurring as the party had left the plant and were en route to their homes a mile or so away from this point. Death was instantaneous.

The affair was deeply regretted by Mr. Webb, but the brother of Mr. Chesser completely exonerated the man, and stated that an inquest was unnecessary, as he was present at the time the accident occurred.

Mr. Chesser leaves a wife and several small children, who reside near LaCrosse. He was a son of "Uncle Dan" Chesser, one of the best-known citizens of that section of the county, and his numerous friends throughout the section sympathize with him in his bereavement.

Funeral services were held over the remains at Antioch yesterday afternoon, when a large circle of friends gathered to pay their last respects to the unfortunate man.

CHANGES BEING MADE.

Improvements in All Sections of the City Go Merrily On.

To see that Gainesville is alive and fully up to all other sections of the State one only has to visit over the city, for in every nook and corner changes and improvements are being made.

Among the largest contracts that are now being worked upon, and which will add to the city, is the handsome new addition W. E. Baker is having made to his home on East Alachua avenue. He is having three rooms added to his dwelling, besides others enlarged, and when the work is completed it will compare with the many other nice homes in that section, while it will prove among the most comfortable.

Dr. M. H. DePass is having the handsome and large Day house on North East Main street remodelled and rebuilt to suit his own convenience. The house will be arranged with all modern improvements and more rooms are to be added.

The old building of S. V. Duke is also being remodelled and enlarged and will contain many more rooms additional when completed. It being located adjacent to the square makes it most easy of access and very valuable property.

Mrs. M. F. Hale is having her home recently purchased on East Main street remodelled and added to. This place being in a particularly desirable section will prove most valuable when the changes and alterations are made.

W. N. Wilson and T. J. McRae are among the latest to have handsome granolithic sidewalks placed around their property on South University street, and this class of work is now being generally contracted for in all sections of the city.

An Inviting Hostelry.

The Atlantic Hotel, formerly the Acme, of Jacksonville, under its new name and change of management is receiving at the present time a liberal share of patronage from its Florida friends and tourists from the North, who are all very much pleased at the appearance of the hotel after being refitted and refurnished by its new owners. No expense has been spared to make the Atlantic one of the best hotels in Jacksonville and those intending visiting Jacksonville would do well to go to the Atlantic, where they will receive the most courteous treatment. Geo. Mooford of New York, its manager, thoroughly understands the needs of the traveling public, and with the assistance of Col. V. J. Shipman, who has a host of friends in this and other States, as chief clerk, the popularity of the Atlantic is assured, and we bespeak for them a crowded house all the time during the coming season. Go to the Atlantic the next time you visit Jacksonville, and get acquainted.

CIRCUIT COURT WILL CONVENE ON MONDAY

SHORT SESSION ANTICIPATED BY STATE ATTORNEY RIVERS.

Says That Court Will Be Over With By Thanksgiving Day at the Latest.

Circuit Court, which will convene in this city on next Monday morning, will be the shortest session held in the county for a number of years, according to the statement of Solicitor Rivers.

He states that the docket, which has been completed, is the smallest for a number of years and that a greater part of it is continued business from other sessions, therefore he believes they will be through and over with the business by Thanksgiving day at the latest.

The convening of court will cause a large number to visit Gainesville during the coming two weeks, the extra crowd will make the city livelier in a business way, and the merchants will doubtless feel the effects of the increased crowd by a liberal patronage.

NEW BANK CASHIER.

C. A. Faircloth Resigns as Cashier of Gainesville National.

W. H. Burdick of Macon, Ga., was elected cashier of the Gainesville National Bank at a meeting held recently by the board of directors of this popular bank.

C. A. Faircloth, who has held this position since the opening of the bank nearly two years since, has proven himself a most capable man, and one that has worked hard for the interest of the institution, and his resignation was accepted by the directors with much reluctance. He continues in the capacity of cashier until the arrival of Mr. Burdick, who has been detained, but is expected in this city at an early date.

It will be gratifying news to Mr. Faircloth's numerous friends and acquaintances to know that he will still make this city his home.

MARRIAGE ON WEDNESDAY.

Prominent Young Gainesville Man Weds McIntosh Lady.

At the Christian church in McIntosh on Wednesday evening at 6:30 o'clock, Mr. Drayton Avera of Gainesville was married to Miss Mary Sue Allen, an accomplished young lady of that place.

Quite a number of his many Gainesville friends went down to witness the ceremony and the church was decorated most beautifully for the occasion by friends of the couple, who will make their home in this city following a short wedding trip.

Mr. Avera is quite popular here and is engaged in the insurance business.

The bride is one of the handsome young ladies of McIntosh and by her amiable disposition has made a host of friends who give her up reluctantly.

MELROSE NOTES.

MELROSE, Nov. 3.—At the recent examination at the Melrose school the following boys and girls made a general average of 98 per cent and over: Rilla Fowler, Attie Lee, Ola Lee, Neva Husband, Ruth Goodson, Myra Barr, Anna Lee, Leta McGregor, Reda Robinson, Troy Jolly, James Alderman, Herbert Chamberlain.

Mr. Hill and party came over from Gainesville via Waldo in about two hours in a fine touring car recently.

The first ducks of the season were seen flying around town on Thursday night.

A town meeting was held last night at the town hall for the purpose of sending a delegation to Gainesville and interview the county commissioners about our share in the road funds. Messrs. A. A. McRae, A. W. Craig and Mr. Torley were appointed to represent District 14 in the matter. Notwithstanding the short notice a good number of citizens were present.

WHISKEY THE CAUSE.

A horrible tragedy occurred in Jacksonville Thursday. A bright little girl nine years old was killed by a man under the influence of liquor who was firing a pistol recklessly. The child was going from a grocery store to her home, and as she was passing the house from which the shot was fired was singing merrily. The man who fired the shot bears a good reputation, and it is not thought that he intended to kill the child, or that he even saw her when the shot was fired. He had quarrelled with a neighbor—a city official—and seizing the pistol announced his determination to go to the official's house and have a settlement of their differences. His wife and a friend attempted to dissuade him and struggled with him, but he persisted, and rushing to the front porch fired the shot. Sober, the man would never have done such a thing. His life will probably be exacted by the law in expiation of the crime.

It is a lesson which should sink deep in the minds of all men who use liquor.—Tampa Times.

"In a minute" is an expression frequently heard. A minute seems a very small and unimportant fraction of time, and because of that idea most people waste a good many in the course of a day. Yet think what can be done in the short space of a minute. Take traveling as an example. In a minute the average pedestrian walks sixteen rods, a trotting horse and an ocean "greyhound" cover half a mile and an express train clips off a mile. That is pretty fast traveling but nothing to what this old world is doing. In one minute it whirls us around on the outside of the earth by its diurnal motion some thirteen miles, and it speeds us on in the same space of time 1,080 miles on its grand tour around the sun. But even that is slow work compared with what a ray of light does, for in one short minute it flashes through 11,000,000 miles. A minute is a good deal after all.

The greed of man is responsible for much suffering and loss of life. Official investigations have shown that very many of the railroad accidents that occurred between 1900 and 1907 were due to defective rails, and that the defects were caused by the attempt of the railmakers to turn out an increasing number of rails in a given time. The attempt succeeded, and their bank accounts correspondingly grew, but it was at the expense of the quality of the rails. The reduction of the time of the "teeming" process from twenty-two minutes to nine minutes resulted in numerous defects or "pipes" in the rails, with the ultimate result of broken rails with consequent destruction of property and loss of life and limb.

What is the use of going through life with glum countenance and melancholy voice? God never meant that any man should do that. The sunny smile, the cheery word and the capacity to always look on the bright side are what is needed for one's own good and that of the world.

A little want ad. will accomplish big results.

THE MARKET FOR BRAINS.

There has never been a time when the demand for brains was keener or the reward for ideas more substantial than they are today.

The high tension of our civilization is felt in every branch of intellectual effort, and the fight for success calls for more and more of the expert and the specialist.

This is the result of the amazing complexities of modern civilization.

President Eliot, in a recent address, directs attention to the marvelous change which has taken place in production and business, making necessary the creation of a school of business as a "remarkable sort of climax of the revolution in organization of American industries."

That business men should demand the trained product of this school is a significant sign of changed standards.

It is not so long ago that the practical business man turned up his nose at the young college graduate; now he is finding out that he cannot get trained men fast enough to satisfy the demand.

Business is becoming more and more a battle of brains, in which the training is a big factor of success.

As time passes, the self-made man is more likely to be only a botched job at best, says The Washington Post.

To one in the midst of this industrial and business revolution, it is difficult to appreciate the marvelous changes in the methods and conditions which have taken place within the past fifty years.

The entire world has been condensed and energized by steam and electricity.

Railroads, steamships, telegraph, telephone and a host of other inventions of modern industry have given a new reading to the gospel of the brotherhood of man, and the new era of progress is only in its drawing.

Even in agriculture, the oldest industry in the world, the revolution is manifest. Nothing is done as was done forty years ago.

But our achievements in preventive medicine is far below the standard. We are still dallying somewhat differently with the problems of typhoid, tuberculosis, and malaria, well knowing what a terrific economic loss they cause annually.

Still there are hopeful signs of an awakening, and American physicians are doing a noble work in arousing a sluggish public consciousness to a sense of duty.

Says Dr. Eliot: "We have learned to prevent the break-up of business by yellow fever in the South, but the gains made are a faint prophecy of what is to come."

CURRENT COMMENT.

Louisville Courier-Journal: "It will be a great day for all of us—and more especially for some of us—when the hook worm lies a bleeding corpse at our feet, and there stretches out before us a colorful and alluring vista, in which striving will be as refreshing as a sparkling draught, and in which achievement will be as easy as getting money in a letter. Great will be the name of John D. Rockefeller; neglible the billions he corralled; sublime the mission to which an allwise Providence appointed him.

Springfield (Mass.) Republican: "Attorneys for the National Association of Agricultural Implement and Vehicle Manufacturers advise their clients that there is doubt enough of the constitutionality of the Federal corporation income tax law to make advisable no action in response to the Government's demands except under protest. There should be, they say, no voluntary reports of payments. That the validity of the law will be put to the test is not to be doubted. More than one suit will be instituted the moment the Government tax collectors begin active operations."

Charlotte Observer: "And now Governor Shallenberger of Nebraska is due to get himself read out of the party for insisting that he, not Col. Bryan, shall write the State platform. Like Democratic candidates for Governor everywhere, he ran well ahead of the Presidential ticket last fall, and bases his attitude largely upon this circumstance. Naturally, the Governor's hardihood has caused a gasp of astonishment to go up. Col. Bryan, though plainly nettled by such presumption within the party, as yet withholds excommunication. We feel sorry for Governor Shallenberger, but rejoice that his fate will necessarily create a diversion in favor of Deacon James Calvin Hemphill and Col. George Marcellius Bailey, who have already been cut off from fire and water."

WHERE THE DANGER LIES.

The recent shocking revelations as to the white slave traffic indicate that the majority of victims come from the ranks of immigrant girls. But it is also true that a large number is drawn from the small cities and towns of our own country.

That may seem surprising to many, and yet a little reflection will show how easily it is made possible. Because the small town is free from some of the evil features of the large city, and everybody is popularly supposed to know everybody else, many parents relax the vigilance and authority they would exercise in a larger place.

That is where the danger lies. The greater freedom as to hours, companionship and other matters, and the laxity of parental discipline, not unoften breeds a dangerous disregard for moral and social proprieties. When that is the case, as many a family knows to its shame, it is an easy thing for some glib, persuasive pander to induce girls to leave home by false descriptions of the easy and attractive life they may enjoy in the city. Almost invariably the girl thus entrapped bids farewell to virtue and happiness, and another line is added to the chapter of ruined lives and wrecked homes.

CAUSES DEBILITY

Here Are Facts Backed Up by a Strong Guarantee.

Catarrh causes debility. In our opinion, most people suffering from general debility have catarrh. Such cases of debility cannot be completely cured by medicine not designed to eradicate catarrh. In every case where our remedy fails to give entire satisfaction we will not charge a cent for the medicine employed during the trial. Now, surely no one should hesitate to believe us or to put our claim to a practical test under such conditions. We will take all the risk; no one else can lose anything by the transaction.

We make these statements and this offer because we know and have time and again proved that Rexall Mucu-Tone rarely fails to do as we claim. It is not a cure-all prescribed to cure every disease that flesh is heir to. It is intended for one purpose, i. e., to cure catarrh by assailing the diseased condition in a reasonable, scientific way, which is to employ agents that have been found to have the tonic and alterative power to correct faulty metabolism (tissue change) and to stimulate and help nature overcome the cause or causes of catarrh. This being done, appetite increases, nutrition improves, weight is gained, comfort of body is attained and life's work taken up with the zest natural to the perfectly healthy individual.

We want you to try Rexall Mucu-Tone. Follow directions and take it regularly and consistently for a reasonable length of time. Then, if you are not satisfied, come back and tell us and the money you paid for the treatment will be returned without any argument whatever.

Rexall Mucu-Tone comes in two sizes, 50c and $1.00 a bottle. Sold only at our store—The Rexall Store. J. W. McCollum & Co., corner East Main and Union streets.

A Broken Back.

That pain in your back caused by lumbago, stiff muscles or a strain, is an easy thing to get rid of. Ballard's Snow Liniment cures rheumatism, lumbago, sore and stiff muscles, strains, sprains, cuts, burns, bruises, scalds and all aches and pains. You need a bottle in your house. Sold by W. M. Johnson.

A Lost Opportunity.

The father of the late Benoit Constant Coquelin, the great French actor, was a baker, and young Coquelin was brought up to the trade. At thirteen, a writer in Le Figaro says, he manifested an irresistible inclination toward the stage, an inclination which his father steadfastly strove to repress.

"Don't devote so much time to those dramas," his father used to say. "You have learned a good trade, the business is running well, and you shall be my successor."

A number of years after Constant had made his way into general favor his father, who took pride in his boy's success, but could never quite get over the feeling that Constant should have been a baker, was congratulated upon his son's eminence.

"I remember," said the old man, "that Constant was a good baker. He would have gone far in the trade."

STENOGRAPHERS' NOTES.

Perfectly Intelligible Only to the One Who Wrote Them.

"My stenographer was taken ill suddenly," said a well known business man the other day, "and as I had dictated some important letters to him which I wanted written at once I took his notebook to a stenographic institution and asked for a man to translate the notes. Judge of my surprise when I was informed that no matter how good an expert a stenographer may be he cannot read the notes of a colleague."

"This is a common complaint of men who know nothing of stenography and have never studied it," said a shorthand reporter recently. "It is true, however, that no stenographer can accurately translate another's notes. This does appear strange, but it must be remembered that stenography is by no means a perfect science. In fact, it is most imperfect, and there is great room for improvement. Therefore every intelligent person who studies stenography after he gets through the rudiments of it begins to improve it in his own way, invents word signs and characters and changes or alters those he has learned. As a result every stenographer's notes are stamped by his own individuality, a mystery to another, and therefore, with the exception of words most commonly used, it would be impossible to read another's notes accurately.—New York Herald.

EYE OF THE CAMERA.

The Longer It Looks the More It Sees Within Certain Limits.

Often the eye of the camera will decipher documents of which the writing had been substantially obliterated by age, says a writer in Van Norden's Magazine. I have successfully copied with the camera the utterly faded photograph of a classmate of forty years previous.

Changes in the pigment of the skin, undiscovered by the eye, appear with distinctness on the sensitive plate, and it is said that ample warning of approaching disease has been thereby given.

The camera takes pictures of subjects which cannot be made to appear on the ground glass and of those which the eye of man has never seen. The human eye can penetrate space no farther in an hour than in a single instant. Yet the eye of the camera will gaze into the sky for hours, looking deeper and seeking more with each second that passes.

Through this attribute of the camera a great chart of the heavens is now being made. In this work distinguished astronomers and photographers throughout the world are co-operating. Yet not one in a hundred of the stars already plainly pictured by them was ever seen by the unaided eye of scientists.

A Verbal Speedometer.

Every calling has its technical vocabulary, and those who are familiar with it are often surprised and irritated at the difficulty other people have in understanding it. A writer in the New York World tells of an old horseman in Maine who had run over a man and was being sued for damages.

The court asked the defendant if he was driving fast. He answered, "I was going a pace." The court then said, "Now, kindly tell the gentlemen of the jury just how fast you were going."

"Well," said the defendant, "I reckon I was going a clip."

"Well, will you tell the jury how fast a clip is?"

"Well, it's going a dite."

"Now, will you tell the jury how fast a dite is?"

"Well, a dite's a dite. Anybody knows what a dite is."

SAVED BY A PANTHER.

The Fierce Brute Proved a Good Temperance Lecturer.

Governor Jennings of Indiana used to tell a story of his early electioneering days in which he said that a panther may be a good temperance lecturer. Colonel W. M. Cockrum repeats the story in his "Pioneer History of Indiana." The incident happened when Governor Jennings was traveling over the thinly settled hills of Dearborn county, electioneering for congress.

He met a man with whom he was well acquainted, by name Tom Oglesby, who was just getting over a protracted debauch. Jennings began asking Tom about his political views. The half sober fellow looked at him and said:

"Jen, don't you think a man just out of a panther fight ought to be electioneered in a different manner from this? I am just from the grave. I was awakened a little while ago by a panther putting leaves and grass over me. It kept this up until I was entirely covered. I lay still for awhile and then raised up and found the panther gone. I knew I was in danger, so I took my gun and climbed into a tree to see what the panther intended to do.

"In a short time I heard her coming, and she had her kittens with her. Every few steps she would jump as if catching something, and the little ones would go through the same maneuvers. She kept this up until she got near to the bed of leaves she had covered over me and then made a spring on the pile. She looked just as I felt when I found that I was covered up for dead. She then started in to investigate the cause of my disappearance, and before she located me I shot her."

Jennings, after hearing this, said:

"Well, Tom, I believe I should treat you as one from the dead and that you should begin your life from this point. We were schoolboys together. I know you are a capable civil engineer and well educated, and if you cease drinking I will see that you have a good position on the surveying corps."

Tom Oglesby did quit drinking. Jennings was elected and kept his promise to his old friend, who became one of the well known engineers of the United States.

THERMOMETERS.

Testing Processes at the National Weather Bureau.

Each day at the weather bureau in Washington the thermometers received from various manufacturers throughout the country are put through the test of standardizing them.

The various processes through which the bulbs pass before they are labeled "accurate" are easy, inasmuch as there is practically little scientific work attached to the test. When a thermometer is first handed to the man in the testing room it is dipped into a vat filled with a compound far below the freezing point. It is thrust in at the point where it happens to be at the time and worked up and down until the degree of the compound is reached. Having then recorded the lowest temperature, the process of testing for the highest is begun. This is just as simple as testing for the low temperature. The bulb is dipped into a vat of water, first at 60 degrees. Then it is worked gradually until 130 degrees is reached. If the mercury in the bulb will indicate 130 degrees further testing is unnecessary, because that is a tolerably warm temperature and one seldom if ever reached by natural heat.

A thermometer the bulb of which contains mercury will not register lower than 28 degrees below zero—that is, mercury will freeze at that point. In this country very little use is found for thermometers showing more than 28 degrees below zero, but in the far north they are of course necessary. Such instruments, however, contain spirits in the bulbs instead of mercury, but even this fluid becomes sluggish when 40 or 50 below zero is recorded, and it will seldom show 60 below.—Harper's Weekly.

Shampoo.

A mid-eighteenth century traveler, who is the first person known to have made English of the word "shampoo," wrote that "shampooing is an operation not known in Europe and is peculiar to the Chinese, which I had once the curiosity to go through, and for which I paid but a trifle. However, had I not seen several Chinese merchants shampooed before me I should have been apprehensive of danger, even at the sight of all the different instruments." The original "shampoo," as this traveler's detailed account and other allusions for long after his time show, was very much what we call "massage" now. It was from India that the word really came, and it represents the imperative of a verb meaning to knead.

A Nest Made From a Leaf.

The tailor bird of India, a tiny yellow creature, makes a most curious nest. To escape snakes and monkeys this bird takes a dead leaf, flies up into a tree and with a fiber for a thread and its bill for a needle sews the leaf to a green one hanging from the tree. The sides are sewed up, an opening to the nest thus formed being left at the top. The leaf, apparently hanging from a twig, would never be taken for a nest.

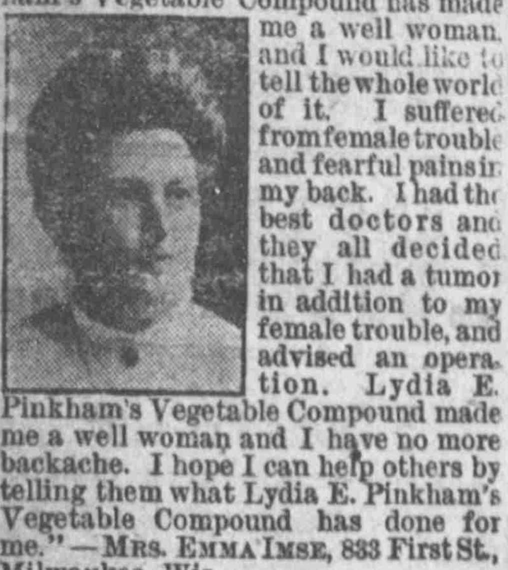
AFTER SUFFERING ONE YEAR

Cured by Lydia E. Pinkham's Vegetable Compound

Milwaukee, Wis.—"Lydia E. Pinkham's Vegetable Compound has made me a well woman, and I would like to tell the whole world of it. I suffered from female trouble and fearful pains in my back. I had the best doctors and they all decided that I had a tumor in addition to my female trouble, and advised an operation. Lydia E. Pinkham's Vegetable Compound made me a well woman and I have no more backache. I hope I can help others by telling them what Lydia E. Pinkham's Vegetable Compound has done for me."—MRS. EMMA IMSE, 833 First St., Milwaukee, Wis.



The above is only one of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which prove beyond a doubt that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women after all other means have failed, and that every such suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery.

Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health and her advice is free.

Blowing Up the Locks.

Would it be easy to blow up and destroy a lock canal by the malicious use of dynamite or other high explosive? The question has been debated much in connection with the Panama canal. The Engineering News calls attention to the fact that an attempt made in 1900 to wreck the Welland canal in this way produced surprisingly small results. After two weeks' examination the two men concerned selected lock 24, and each lowered a satchel containing dynamite and a fuss to the water behind the gate at each end of the lock. Both charges were exploded, but the dynamite failed to carry away the gates. Although the explosives blew a hole about a foot in diameter through each gate and loosened the hinges, the gates remained in position, holding back the water.

THEIR OWN DOCTORS.

Remedies That Animals When Sick Instinctively Select.

With the brute creation the simple remedies of nature generally suffice for their few ailments, and they are guided to them by instinct. We have been told how the mongoose cures himself when bitten by a cobra by eating a certain plant, and many country residents have seen a sick dog bury himself in the dirt.

Animals instinctively choose such food as is best suited to them. A large number of animals wash themselves and bathe, as elephants, stags, birds and ants. In fact, man may take a lesson in hygiene from the lower animals. Animals get rid of their parasites by using dust, mud, clay, etc. Those suffering from fever restrict their diet, keep quiet, seek darkness and airy places, drink water and sometimes even plunge into it.

When a dog has lost his appetite he eats that species of grass known as dog's grass (chiendent). Cats also eat grass, catnip, etc. Sheep and cows when ill seek out certain herbs. An animal suffering from chronic rheumatism always keeps as much as possible in the sun. The warrior ants have regularly organized ambulances.

Latrelle cut the antennae of an ant, and other ants came and covered the wounded part with a transparent fluid they secrete in their mouths. If a chimpanzee be wounded it stops the bleeding by placing its hand on the wound or dressing it with leaves and grass. When an animal has a wounded leg or arm hanging on it completes the amputation by means of its teeth.—Philadelphia North American.

Which Leg?

In a small town in the west of Scotland the town clerk, who was a bit of a "character," had the misfortune to lose his leg in a railway accident. As a mark of appreciation and esteem for his long services the council unanimously agreed to replace his loss with an artificial limb, which they did as soon as he was sufficiently recovered. A few months afterward the town clerk, who was generally known by his Christian name, Paul, was unfortunate enough to have his other leg fractured in an accident. Naturally the mishap became food for town gossip, and one old wife in discussing the matter with a neighbor was overheard saying:

"It's a gey bad business for Paul, puir man, but is't his ain leg or the leg that belangs to the toon that's broken?"

Life of the Red Deer.

According to an old Gaelic legend, a red deer might live for 210 years, an eagle for 630 and an oak tree for nearly nineteen centuries. Nowadays, however, hundred year-old deer would be difficult to find. From twenty-five to thirty-five years apparently may be about the range of their existence.—London Country Gentleman.

The Amateur.

"Yes," said the person who had attended the party, "Miss Keepounder was there, and we had to beg and beg her to play."

"And did she play?"

"Oh, yes. I thought for a time that we would have to beg and beg her to stop."—Exchange.

WARREN TOPPAN, Lynn, Mass.

Cured of severe compound cold and cough by

Vinol

"From Dec. 20, '08, to March 1, '09, I had three bad colds, one on top of the other. I got so weak I could hardly get around. Nothing seemed to help me until I began to take Vinol. The change was magic. Three bottles completely fixed that compound cold and stopped the terrible cough—and what surprises me most, at the same time it cured me of a severe stomach trouble that has bothered me for 20 years. Vinol is certainly a wonderful medicine."

Mr. Toppan is one of Lynn's most prominent and highly respected merchants, whose word is as good as his bond.

The reason Vinol is so successful in such cases is because it contains the two most world-famed tonics—the medicinal, strengthening, body-building elements of Cod Liver Oil and Tonic Iron.

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems, operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

"That Which Is Worth Having Is Worth Advertising For"

The old adage that what is worth having is worth asking for is still true—true of the more intricate life of today.

The thing you want—whether it is a used piano or a home, whether it is a ready-made business or a lost pocketbook—is obtained readily through advertising, and with difficulty, or not at all, through other means.

The original DeWitt's Carbolized Witch Hazel Salve is good for anything a salve is used for, but it is especially good for piles. Sold by all druggists.

..BELT PINS..

Buckles are undoubtedly a thing of the past. Some beautiful belt pins are shown in the most elegant designs. Odd shapes with big sets are very popular.

Hat Pins—Of hat pins there are a thousand and one different styles, all of which are worthy. There are pins with metal rims framing jewels of different kinds, and there are pins of metal alone and jewels alone. Silver Hat Pins are good because they go so well with the trimmings used on the hats.

The first and second days of our Piano Contest proved interesting, as friends of the girls and young ladies are getting busy in order to have them among the first.

Held Joint Session.

J. D. Herlong and Mr. Douglass, two of the county commissioners of Columbia county, were here Tuesday and met with the Alachua county commissioners for the purpose of closing the contract for the bridge over Santa Fe river at a point near High Springs. Only one company was represented, the Roanoke Bridge Company, and as a consequence the contract was made with this firm, each county to pay one-half the cost of the work.

A part of the morning session was secret, but it was understood that it was held mainly to transact business relative to the construction of the above bridge.

Refined comedy, character changes, singing and dancing, can be seen at the Baird tonight along with the illustrated songs and motion pictures. Prices, 10 and 20 cents.

Spend an evening of genuine pleasure and amusement by attending the show at the opera house. A whole performance for a small admission. Three long reels of high-class subjects, illustrated songs and a double vaudeville bill.

John Bell, one of the well-to-do farmers of the Hawthorn section, was a visitor to the city yesterday. He states that some few oranges are being gathered from the groves in that section and that the fruit is very fine and free from rust and insects.

By far one of the best vaudeville bills ever presented to a Gainesville audience can be seen at the New Baird tonight. Messrs. Voyle & McCollum have secured Misses Katherine Howard and Elsie Russell, who have the endorsement of the Phoenix Theatre in Jacksonville.

Mrs. Wm. J. Sheridan, accompanied by her little daughter, Dixie, arrived in the city yesterday, and will spend a few days as the guests of Mr. and Mrs. John Shea. Mrs. Sheridan's friends here will be pleased to know that she has completely recovered from her recent illness.

Harry Bullock, a late member of the Oak Hall Baseball Club, is here for a few days' visit among his friends. He is now employed on the East Coast railway and is en route there from a visit to Ocala, where he went to see his mother, she having been seriously ill for a number of days.

The regular monthly business meeting of Kirby Smith Chapter, U. D. C., will be held at the home of Mrs. H. H. McCreary this afternoon at 3:30 o'clock. There will be business of importance and a full attendance is earnestly requested. Members are also requested to come prepared to settle dues.

GOMPERS ET AL. HELD GUILTY OF CONTEMPT

Court of Appeals for District of Columbia Affirms Sentence of Labor Men.

WASHINGTON, D. C., Nov. 3.—The decree of the District of Columbia adjudging President Samuel Gompers, Secretary Frank Morrison and Vice-President John Mitchell, of the American Federation of Labor, guilty of contempt of court, in the Buck's Stove and Range Company case, was affirmed yesterday in the Court of Appeals for the District of Columbia. The case will now be taken to the Supreme Court of the United States.

Chief Justice Sheppard dissents from the opinion of the court on constitutional grounds. The court held that the fundamental issue is whether the constitutional agencies of government should be obeyed or defied. The mere fact that the defendants were the officers of organized labor in America, said the court, lent importance to the cause and added to the gravity of the situation, but it should not be permitted to influence the result.

Must Obey the Courts.

"If an organization of citizens, however large," the court held, "may disobey the mandates of the court, the same reasoning would render them subject to individual defiance. Both are subject to the law and neither is above it. If a citizen, though he may honestly believe that his rights have been invaded, may elect when and to what extent he will obey the mandates of the court and the requirements of the law as interpreted by the court, instead of pursuing the orderly course of appeal, not only the courts, but the Government itself would become powerless and society would be reduced to a state of anarchy."

The action of the Supreme Court of the District of Columbia in sentencing Samuel Gompers, John Mitchell and Frank Morrison, of the American Federation of Labor to twelve, nine and six months imprisonment in jail, respectively, was the result of the failure of these three defendants to obey the order of the court, directing them to desist from placing the Buck's Stove and Range Company of St. Louis, Mo., on their unfair list in the prosecution of their boycott against the corporation.

Boycott Results.

While the name of the corporation was removed from the unfair list of the federation, Messrs. Gompers and Mitchell continued to keep alive the boycott by frequent references to it in The Federationist, the official organ of the federation. Mitchell was involved in the trouble by reason of his membership on the executive board of the federation and because it was alleged he had made no effort to prevent the adoption of a resolution at the convention of the United Mine Workers of America in antagonism to the Buck's Stove and Range Company. The result of the boycott, it was said, was to cause a decline in the business of the stove and range company of 50 per cent.

The boycott placed by the federation against the products of the Buck's Stove and Range Company grew out of a fight made by the metal polishers union and supported by the federation for an eight instead of a nine-hour day. This was resisted by the company and The Federationist published the name of the Buck's Stove and Range Company under the caption of "We Don't Patronize."

Gompers Hurrying to Washington.

New York, Nov. 3.—President Samuel Gompers of the American Federation of Labor issued a statement in regard to the decision.

"With all due respect to the majority of the court I cannot surrender constitutionally guaranteed rights because a judge will issue an injunction invading and denying these rights. Chief Justice Sheppard's dissenting opinion is in defense of the constitutional and inherent rights. Minority opinions of courts in the past in which human rights have been invaded have ultimately prevailed, become the law of the land and the generally accepted rule of life, and I have an abiding faith that the rule in this case will prove no exception.

"If I must go to jail I shall have the consciousness of the fact that other men have in the past been compelled to suffer in defense of justice and right in the cause of humanity and for the maintenance of human liberty.

"I intended to stay over here tomorrow to finish up my report for the annual convention at Toronto and also to attend the wedding of the daughter of a very dear friend of mine, but I am going to change my plans and shall leave so I can get into Washington as soon as I can. I want to be within the jurisdiction of the court, whatever disposal is made of the case."

Vancleave Talks of Decision.

St. Louis, Mo., Nov. 3.—J. W. Vancleave, president of the Buck's Stove and Range Company, in a statement concerning the decision in the case of Gompers, Morrison and Mitchell, said:

"The assault upon me by the American Federation of Labor in 1906 was plotted in cold blood. I was assailed not as an individual, but as president of the National Association of Manufacturers. The Federation did this in order to show its power. It aimed to strike terror into everybody outside its own ranks—workers, employers and the general public alike, and to coerce the President of the United States, the Congress and the courts, Federal and State, to do its bidding.

"It must be remembered that these men are not convicted because of their attempt to destroy the business of the Buck's Stove and Range Company, but because they openly defied the order of the Federal court."

CIRCUIT COURT WILL CONVENE ON MONDAY

SHORT SESSION ANTICIPATED BY STATE ATTORNEY RIVERS.

Says That Court Will Be Over With By Thanksgiving Day at the Latest.

Circuit Court, which will convene in this city on next Monday morning, will be the shortest session held in the county for a number of years, according to the statement of Solicitor Rivers.

He states that the docket, which has been completed, is the smallest for a number of years and that a greater part of it is continued business from other sessions, therefore he believes they will be through and over with the business by Thanksgiving day at the latest.

The convening of court will cause a large number to visit Gainesville during the coming two weeks, the extra crowd will make the city livelier in a business way, and the merchants will doubtless feel the effects of the increased crowd by a liberal patronage.

Mr. Seth Rhodes and Miss Olive Powers were married at the Baptist church in Orlando last Wednesday, and left immediately for Melbourne, the home of the groom.

Ocala is soon to have another bank, with a capital of about $100,000. The new financial institution will be opened some time in January.

JUDGE GAYNOR ELECTED; TOM JOHNSON DEFEATED

Tammany Lands Candidate for Mayor of New York But Cleveland Went Back on "Tom."

NEW YORK, Nov. 3.—Judge William Gaynor, Tammany's nominee for mayor, won a great victory over Judge Bannard, the Republican, and William Randolph Hearst, the Independent candidate. Hearst's race was a poor one, as he had about 150,000 votes against 245,000 for Gaynor, while the Republican nominee had about 175,000. Gaynor's personal popularity and his championship of a liberal Sunday brought many thousands to his support.

Gaynor, however, failed to carry his ticket with him, as the Republican-Fusion forces will control absolutely the board of estimate and apportionment, which will disburse approximately a billion dollars during the administration. This is more than half a defeat for Tammany, for the control of the board of estimate was one of the principal issues of the campaign.

In addition, the Republican-Fusionists elected Charles S. Whitman district attorney of New York county, who defeated George Gordon Battle, the Democratic nominee, by at least 13,000 plurality, and John S. Shea for sheriff over Christopher D. Sullivan (Democrat) by approximately 10,000.

Tom Johnson Defeated.

Cleveland, O., Nov. 3.—Thomas L. Johnson, four times mayor of this city, was defeated yesterday for the fifth term by Herman Baehr, the Republican candidate. The latter is the first Republican to be elected mayor in ten years. Mayor Johnson announced that he will be a candidate again four years hence. Baehr's majority will exceed 4,000.

Indianapolis Republican.

Indianapolis, Ind., Nov. 3.—Samuel Lewis Shank, Republican candidate for mayor, won his race by about 1,200 majority. The Republicans were also successful in Evansville, Fort Wayne, Richmond and Crawfordsville. The Democrats carried South Bend, Muncie, LaFayette and Terre Haute.

The Cincinnati Contest.

Cincinnati, O., Nov. 3.—Dr. Louis Schwab was re-elected mayor of Cincinnati yesterday, defeating J. T. Peck, Democratic nominee, by a small majority.

Results in Virginia.

Richmond, Nov. 3.—Judge William Hodge Mann, of Nottoway, Democrat, was elected Governor of Virginia yesterday over William P. Kent, of Wytheville, Republican. He carried the entire Democratic ticket with him, the Republicans not making a serious contention for a single office.

Pennsylvania.

Philadelphia, Nov. 3.—Pennsylvania selected the Republican candidates for State treasurer, auditor-general and judge of the Supreme Court in yesterday's election, and Philadelphia

Governor Has Money for Soldiers in Late War

TALLAHASSEE, Fla., Nov. 2.—Governor Gilchrist has before him the task of distributing to the officers and men who comprised Florida's quota of soldiers in the Spanish-American War, a sum of money which has recently been collected from the United States Government under the act of Congress providing for pay and rations of such soldiers. It appears that the amounts now to be distributed are additional amounts found to be due to numerous officers and men of the Florida troops, based upon a ruling of the Comptroller of the Currency as to the amount due these soldiers for pay and rations. It appears that the ruling of the Comptroller of the Currency held that the act of Congress made the Governors of the several States, as individuals, agents of the United States Government for the distribution of the amounts ascertained to be due to the soldiers of the respective States.

As to the soldiers who enlisted and were enrolled in the Federal service from Florida, it is anticipated that considerable difficulty will be found in locating many of the men at this time, after a lapse of ten years since the Spanish-American War.

Governor Gilchrist would be glad to have any officer or enlisted man who was enrolled in that service write him, stating his present postoffice address. The Governor would also like to have the present postoffice address of the legal representatives of any of the soldiers who may have died.

Woman Sold Girl for $50; Then Nabbed by Police

CHICAGO, Ill., Nov. 1.—Charged with selling a young woman for $50 into "white slavery," Mrs. J. W. Frank, a South Side woman, was arrested here Saturday. The formal charge against her was pandering.

Mrs. Frank was trapped by the police who had [illegible] her, and sent representatives of a neighboring improvement organization to see her. They contracted to buy a young woman from her for $50. The woman took the money and delivered to them a young girl. As the men left the house with the girl police officers arrested Mrs. Frank and held the girl as a witness.

Taft Party and Circus Folks Engaged in Battle of Wits

BIRMINGHAM, Ala., Nov. 3.—For an hour or more before leaving Jackson, Miss., early yesterday morning President Taft's special train was parked in the railroad yards immediately alongside one of the sleeping car trains of the three-ring circus which played in Jackson as an opposition attraction to the President on Monday.

It was not long before an acquaintance had been formed aboard the two trains and for a time the conversation ran from window to window like this:

"We play in Yazoo tomorrow, where do you play?" asked a representative of the circus, addressing one of the Presidential party.

"We play in Columbus in the afternoon and Birmingham at night with a street parade in both places," came the reply.

"We played Columbus yesterday."

"How was business?"

"Bully."

"We get the crowds wherever we go," boasted a Presidential one-night stander.

"But we get the money," came back the circus man amid the applause of his associates.

"Yes," put in a lady bareback rider, "and you only have a one-platform show and a band in the parade. We have a band all the time."

"If it was not for the one 'main guy' you would not have a show at all," chimed in a sad and serious visaged individual through one of the windows of the yellow circus train. He was the leading clown.

The bombardment from the three-ring show became so heavy that the Presidential adherents gave up the task of further comparison, and all hands parted company with expressions of great delight that the circus was going into winter quarters in two weeks, and that the President's troupe was quitting the road in ten days.

Girl Stole Black Dress For Father's Funeral

CINCINNATI, Nov. 3.—Because she is alleged to have taken a quantity of black silk goods with which to make a dress of mourning colors to wear at the funeral of her father, who lies dead in Covington, Ky., Miss Hattie Schmidt, 26 years of age, was arrested in a department store in this city by detectives yesterday and taken to the House of Detention, where a charge of petit larceny was lodged against her. The young woman wept bitterly, saying it was her first offense. It is probable that the charge will not be pressed.

THE AUTHOR AND THE HOME OF "'WAY DOWN ON SUWANNEE RIBBER"

(By P. M. Oliver.)

Inspired by the beautiful surroundings of this world-renowned and widely-sung "Suwannee Ribber," upon its banks in the superlatively beautiful evergreen groves of which the author of this enchanting melody composed the song, I will give to your many readers evidences gained with my own eyes, and history obtained from old settlers and former neighbors of the original author, of whom there has been much interest manifested in the musical and literary world.

I do not wonder that this enchanting place was the scene laid for that soul-stirring melody, and the inspiration here sprang into a French girl's mind to compose it. Here, looking over the placid, crystal waters of old Suwannee river, in the bright mellow moonlight, where a million ripples chased each other across the silver sheen into the shadows thrown out by the gigantic trees, and with a soft, gurgling sound, when occasionally a fish sprang playfully out of the water, falling back with a weird sounding splash that threw hundreds of water drops high into the air, sparkling like fire-flies, while from tiny brooks came varied music from piping frogs, with solos, duettes, trios, quartettes, quintettes, following each other in quick succession and astonishing numbers, gradually mingling, merged into a grand and beautiful chorus that swelled from the little rivulets like the rich tone of a mighty pipe-organ, mingling with the tinkle of silver bells. Such was the paradisical surrounding of a French girl of eighteen happy summers, whose devoted parents settled on the west bank of the Suwannee river, nearly a century ago, and before the red man ceased his cruel scalping of the pioneer settlers with his deadly tomahawk.

Many have been the supposed authors of this world-renowned and sweet old melody, "Away Down On the Suwannee River." Such has been the great desire and curiosity manifested to discover the original author, that the proprietor of the now famous Suwannee Springs offered a reward for the author. Prof. Stephen Foster, writer of many popular negro melodies, was proposed and accepted, in the absence of more authentic information. But there never was a greater mistake or greater injustice done to the true author; for I have seen with my own eyes, and hunted over the old indigo fields and plantations, now grown up with huge forest trees and jungles, of one LaFayett, father of the girl "Marie," the author of this song. The old indigo troughs, dug from the huge live oak trees or logs, are yet to be seen, as are also trenches picked with ax and chisel in the large boulders of "rocks of ages," living witnesses, many of which lie on the surface of the ground, having been upheaved by volcanic disturbances in by-gone days. Here this Frenchman cultivated and pounded his indigo in troughs, which was sold and used for dyeing purposes. The father and all his children, save one, succumbed to a deadly malady—swamp, or African fever—leaving the poor widowed mother and daughter, Marie, broken-hearted and alone—separated by ocean from relatives—strangers in a strange land. Mother and daughter ultimately returned to France, bidding a tearful adieu to the sacred graves, and leaving the murmuring winds of old ocean to sing a sad requiem over the precious bones of departed ones.

Such are the sad facts as remembered and reported to the writer by the old settlers and neighbors of this unfortunate French family. Your readers, interested as to the precise locality, can refer to any map of Florida, and between 20 and 40 miles from the mouth of the Suwannee will discover Clay Landing, Fort Fannin, and Old Town. Just northwest of Fort Fannin are the memorable old indigo fields, troughs and other evidences, convincing of the former settlers. One of the oldest settlers and dearest friends of the French widow and beautiful daughter claimed to have received as a souvenir direct from the girl author, one of the first written manuscripts of this world-renowned song, before it ever found its way into print, which, with its pathos and soul-stirring expressions, made it such a world-wide favorite melody.

While the writer was recently camping and hunting with a party over this memorable spot, beneath huge, towering evergreens of magnolia and live oak trees, which with outstretched branches embracing each other, as if to afford a more comfortable shelter and shade for we "wandering Nimrods"

Birds of beautiful song and plumage sing,
And with wooing, graceful motion,
Stooping, make love to the rippling spring,
Which sparkled back devotion.

In appreciation of which our camp hunting party replied by chanting in sweet solos, duets, trios: "Away Down On the Swannee Ribber," which was caught up by carressing and balmy breezes from Old Ocean, and gently echoed over the placid waters of the river, and re-echoed back from the elevated banks of the opposite shore.

Of all the beautiful, limpid, life-giving rivers, which ripple "Minnehaha-like," forming in its course laughing rinkles over its placid surface, shedding crystal tears of joy in its onward course to refresh the briny waters of the great Gulf of Mexico, it is Florida's Suwannee River, for methinks

Of all God's glorious streams, there's scarce a lovelier sight,
Than this Suwannee River fair, bathed in the soft moonlight.
And sure if there is a stream on earth nearest Heaven's gate,
It's this Utopian stream, in our fair tropical State.

There is but one conclusion conceded by visitors to Florida, as some writer once said: "He who once bathes in, and drinketh of her limpid waters, returns athirst, to bathe and drink again."

In the language of the Poet Cowper:

"One wish is to my heart most dear,
One boon at Fortune's hand I crave.
In childhood's day Fate brought me here,
Let Fate make here my grave."

Folowing are the original words of the world-renowned song:

I.

"Way down upon de Swannee ribber,
Far, far away,
Dere's wha my heart is turning ever,
Dere's wha de old folks stay;
All up and down de whole creation,
Sadly I roam,
Still longing for de old plantation,
And for de old folks at home.

Chorus.

"All de world is sad and dreary,
Ev'ry where I roam,
Oh, darkies, how my heart grows weary,
Far from de old folks at home.

II.

"All roun' de little farm I wandered,
When I was young,
Den many happy days I squander'd,
Many de songs I sung.
When I was playing with my brother,
Happy was I,
Oh, take me to my kind old mother,
There let me live and die.

III.

"One little hut among de bushes,
One that I love,
Still sadly to my mem'ry rushes,
No matter where I rove.
When will I see de bees a-huming,
All 'roun' de comb?
When will I hear de banjo tumming,
Down in my good old home?"

LICENSES COMING SLOW.

Collector Dickinson Says They Are Slower Than Last Year.

In speaking of the payment of licenses of merchants and business men throughout the county, Tax Collector Dickinson stated to a representative of The Sun that those required to pay licenses are very slow this season.

"I have only collected 325 licenses so far this season out of a possible 602," Collector Dickinson said. "This same period last year I had collected 400, which shows quite a decrease. There should be no excuse for this, as the people throughout the county appear to be more prosperous this year than last. Their products have brought more, the farmers and others are spending more, hence money should be more plentiful and license taxes easier to pay."

Collector Dickinson says these licenses must be paid, and he will be compelled to get out his "big stick" on the delinquents in a short while.

MONDAY SESSION WAS VERY LIGHT ONE

ONLY FIVE SUMMONED BEFORE CITY JUSTICE MONDAY.

Sam Cook, an Old Offender and General Gambler, Forfeited His Bond Rather Than Appear.

The regular Monday session of Mayor's Court was nothing to compare with the preceding week, still a number of offenders were present to have justice meted out to them by Mayor Davis.

Sam Cook, who is an old offender, again got into trouble with a woman who in consequence reported the matter to the policeman and Cook was relieved of a cash bond of $10. Sam failed to appear and forfeited the bond.

James Gibbs, who was totally "down and out" on Masonic street when he was found by Marshal Dell, forfeited his cash bond of $5. It was necessary for the Marshal to secure a dray to haul the man to the station on Saturday night, but on Sunday morning his tale of woe was so pitiful that he touched the goodness of the Marshal and was let off with a small bond.

N. Francisco was charged with fighting—$5 and costs.

Joe Manning, charged with reckless driving, forfeited a cash bond of $5.

Lige Williams was charged with disorderly conduct and a large number of witnesses were present to testify as to just how much of a disturbance he did raise, but as some of his witnesses were absent, Mayor Davis continued his case until next Monday with the admonition that he must have them present on this occasion.

Coughs and Colds—At this season when coughs are so prevalent, an effectual remedy, and one easily obtained, is Perry Davis' Painkiller. It is no new nostrum, vended by unknown agents, but has stood the test of over seventy years; and those who use the article, internally or externally, will connect with it grateful recollections of its worthy inventor.

Louisville, Ky.—"Lydia E. Pinkham's Vegetable Compound has certainly done me a world of good and I cannot praise it enough. I suffered from irregularities, dizziness, nervousness, and a severe female trouble. Lydia E. Pinkham's Vegetable Compound has restored me to perfect health and kept me from the operating table. I will never be without this medicine in the house."—Mrs. SAM'L LEE, 3523 Fourth St., Louisville, Ky.

Another Operation Avoided.

Adrian, Ga.—"I suffered untold misery from female troubles, and my doctor said an operation was my only chance, and I dreaded it almost as much as death. Lydia E. Pinkham's Vegetable Compound completely cured me without an operation."—LENA V. HENRY, R. F. D. 3.

Thirty years of unparalleled success confirms the power of Lydia E. Pinkham's Vegetable Compound to cure female diseases. The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound is a remarkable remedy for those distressing feminine ills from which so many women suffer.

Boards Were in Session.

From Wednesday's Daily Sun:

The County School Board and County Commissioners were both in session during Tuesday, the former completing their labors during the day while it will take the commissioners a couple of days to finish their great volume of business.

A DELIGHTFUL OCCASION.

Miss Annie Lou Bostick Entertained Number of Her Young Friends.

At the hospitable home of her parents, Mr. and Mrs. R. B. Bostick, 708 North University street, Saturday night, Miss Annie Lou Bostick entertained a number of her friends in a unique Hallowe'en party, and it is needless to add that those who attended were delightfully entertained.

The guests were Misses Ida Burkhim, Fannie Burkhim, Rosa Belle Pedrick, Winnefred Pedrick, and Messrs. James Vidal, D. Davis, Larkin Carter, Elmer McCreary, Capperman, and J. Kauffman, of New York.

As they entered the guests beheld a large bowl on one side of the piazza decorated with innumerable Japanese lanterns, from which delicious punch was served by Mrs. Bostick, mother of the hostess. The guests were then invited into the home, where all were made welcome by the clever little hostess. The parlor was decorated in white, suggestive of the occasion, and the arrangement was both unique and tasty. The room was also filled with swinging apples, and a prize of a box of candy was awarded to the person biting the highest apple. There was also a tub of floating apples, with the usual amusing contest of "diving" after them, the successful contestant also receiving a prize.

The evening passed in relating ghost stories, after which delightful refreshments were served.

A Successful Farmer.

Among those who visited Gainesville last week were Mr. and Mrs. W. J. Hodge of Alachua. Mr. Hodge is not only one of the oldest and most widely-known citizens of his section of the county, taking a part in everything for the benefit of himself and neighbors, but is also a successful farmer, as has been demonstrated by the large quantities of staple productions of the farm which he harvests each season. Alachua county needs a few more like him, when we can easily be rated as the most prolific county in the State.

G. L. Hendry has produced twenty barrels of rice and fifteen barrels of syrup from his farm at Fort Green.

One fault in a man is of more consequence to him than a thousand in that of his neighbor.

Packers say they have not benefited by the high prices of meats in the past year. May we ask who has?

We outgrow many things and manners, and customs and opinions change, but the moral law does not change, neither has society outgrown it.

To be able to say or do a kind thing and yet not do it is bad for the one who would have benefited by the kindness, but it is infinitely worse for the one who neglects to do it.

The Atlanta Constitution says the reason some people apologize for their religion is because they take it as they would necessary medicine. There is a great deal of truth in that statement.

The democracy of our public schools, as seen in the sitting side by side of the son of the poor man and the son of the rich man, puts a wholesome check upon class and caste feeling and is a potent factor in forming our national character.

Parents are sometimes guilty of unintentional cruelty to their little children in taking them on too long walks. They measure the children's ability to walk long distances by their own, forgetful of the fact that the undeveloped limbs tire easily.

While the other fellows are talking about "running for Congress," Hon. Frank IS running. He is continually on the go from place to place meeting and talking with the people and taking note of their wishes. Only in this way can a representative keep in close touch with the people, and it is Congressman Clark's greatest ambition to carry out, to the best of his ability, the wishes of his constituents.

The Palatka Times-Herald says Hon. W. A. Blount, candidate for United States Senator, belongs to the optimistic class. Certainly. If he had been a pessimist he would at present be practicing law before some country justice of the peace, instead of enjoying the largest law practice in the State of Florida. Optimists are builders; pessimists destroyers. Willie Blount could not be anything but an optimist. He is a big man. Pessimists are little men, and there is no place for them in such a progressive State as ours.

How surely wrong doing affects the innocent as well as the guilty is constantly seen. The other day a bank official was arrested for embezzlement. His brother-in-law, also an official of the bank but entirely innocent of wrong-doing, was so overcome with shame that he shot himself upon the grave of his mother. When his body was taken to the house his mother-in-law was so affected by the sight that she dropped dead by his body. If the guilty man who caused all this sorrow has any conscience he must feel the keenest remorse over his crime and the tragedy it involved.

THE BLUE-RIBBON HUSBAND.

In Chicago they have followed up the horse show, dog show and baby show idea by establishing an annual "Hubby Show." They spell it with capital letters out there, indicating they think it a capital thing, says The Savannah News. Once a year a number of wives get together, put their husbands on exhibition, figuratively, and discuss their good and bad points. There are prizes, graduated according to the merits of the entries. First prize is a blue ribbon, the same as in the horse show. The blue ribbon winner of this season's "Hubby Show" is Mr. Samuel W. Van-Nostrand, who has been trotting in double harness nine years and has never made a balk or kicked over the traces. Here is a summary of Sam's good points, vouched for by his wife and O. K'd. by the committee of judges:

Good-natured before breakfast.
Allows wife to carry the pocketbook.
Says wife's cooking is better than mother's.
Prompt at meals.
Good entertainer.
Adept with chafing dish.
Good judge of feminine beauty.
Generous and kind-hearted.
Enjoys home more than the club.
Almost feminine ability to sew.
Happiest when among friends.

Any bride of six weeks can say that there is nothing exceptional in that record. She can find all of those good points in her own husband without half trying, and several hundred others besides. But then it should be remembered that Sam had been in the harness for nine long years. The six-weeks' husband is nearly always a paragon of perfection, an Adonis, a prince, and all that sort of thing. But nine years are apt to make changes in ideas and smash some idols. Sammy got his blue ribbon, and deserved it, of course, or the judges wouldn't have given it to him. But didn't he make a showing of a rather insipid sort of husband? Wasn't he a sort of truck horse, content to plod and pull?

An old English saw runs: "A woman, a dog, a walnut tree; the more you beat 'em the better they be." That isn't true, of course. But we have heard it said that there are certain races of women who are never happy unless their husbands rule with an iron hand, with occasional spankings. That also is extreme and doesn't apply in this country. Still it may be asserted that women as a rule do not like colorless, mentally flaccid men as their husbands. They want spice, ginger and a little vinegar. That may account in some measure for the liking of even young girls for pickles.

A man goody-goody always is more than apt to be tiresome, unless he is a preacher, and that is to be expected of a preacher. Women themselves have a way of calling the sort "milksons" and mollycoddles." They are bored beyond words by a perpetual grin and a perpetual sissy-like acquiesence in everything. They prefer variety. Happiness is a matter of contrasts. We shouldn't know how to be happy if everything were on a dead-level of complaisancy and softness. It is necessary that there should be some roughness and some bumps to make life worth living.

NOT THE SAME JOSHUA.

"We had a county judge down my way a few years ago whose love for biblical lore was so pronounced that he couldn't resist the desire to air it on every possible occasion," said Congressman Henry D. Clayton of Alabama a few days since. "One day an old darkey was brought in from the mountain district under suspicion of maintaining an illicit still. There was no real evidence against him.

"'What's your name, prisoner?' asked the Judge as he peered at the shambling black man.

"'Mah name's Joshua, Jedge,' was the reply.

"'Joshua, eh?' said the Judge, as he rubbed his hands, 'Joshua, you say? Are you that same Joshua spoken of in Holy Writ—the Joshua who made the sun stand still?'

"'No, Jedge,' was the hasty answer, 'twarn't me. Ah'm de Joshua dat made de moon shine.'"—From Norman E. Mack's National Monthly.

It is to be hoped that Mr. Rockefeller's million will be the bait that the book worm has been looking for.

SHOT WHILE HUNTING.

Fleshy Part of Arm Was Torn Away While Duck Shooting.

Report was received in this city yesterday that Thaddius Hague, one of the prominent young men of the Hague section, had been accidentally shot while out hunting for duck on Tuesday evening.

It was stated that he leaned his gun up against some brush and the gun being too heavy for the small support, fell to the ground, discharging the contents of one barrel which took effect in his arm, completely tearing away the fleshy part of the member.

At last accounts the young man was resting as easy as possible under the circumstances, and it was thought that his entire arm could be saved, which will be gratifying to his numerous friends.

MELROSE NOTES.

MELROSE, Nov. 3.—At the recent examination at the Melrose school the following boys and girls made a general average of 98 per cent and over: Rilla Fowler, Attie Lee, Ola Lee, Neva Husband, Ruth Goodson, Myra Barr, Anna Lee, Leta McGregor, Reda Robinson, Troy Jolly, James Alderman, Herbert Chamberlain.

Mr. Hill and party came over from Gainesville via Waldo in about two hours in a fine touring car recently.

The first ducks of the season were seen flying around town on Thursday night.

A town meeting was held last night at the town hall for the purpose of sending a delegation to Gainesville and interview the county commissioners about our share in the road funds. Messrs. A. A. McRae, A. W. Craig and Mr. Torley were appointed to represent District 14 in the matter. Notwithstanding the short notice a good number of citizens were present.

Held Joint Session.

J. D. Herlong and Mr. Douglass, two of the county commissioners of Columbia county, were here Tuesday and met with the Alachua county commissioners for the purpose of closing the contract for the bridge over Santa Fe river at a point near High Springs. Only one company was represented, the Roanoke Bridge Company, and as a consequence the contract was made with this firm, each county to pay one-half the cost of the work.

A part of the morning session was secret, but it was understood that it was held mainly to transact business relative to the construction of the above bridge.

A Correction.

Editor Sun: I notice in the Orange Heights items in your paper of the 30th ult, that the church at this place would give a supper on next Friday evening, which is a mistake, and we would be glad if you would correct same in your next Thursday's issue.

The ladies of this place will give a supper Friday evening, the 12th inst., for the purpose of raising funds to paint the church house at this place. Everybody is invited to come.

Your correction of the item will greatly oblige. Yours truly,

J. A. KING.

Tendered a Free Ride.

The Gainesville Automobile Association tendered a ride to the commissioners on Wednesday morning when they visited the road over the proposed endurance route between this point and Micanopy. This was done to show the commissioners the necessity of better roads for the accommodation of the automobile as well as the regular teams, and the special order of the board on Tuesday shows that they will at once commence the work of getting the thoroughfares in better shape.

SUPREME COURT DECIDES THAT SHIPP MUST SUFFER

Tennessee Ex-Sheriff and Five Others Are to Be Sentenced on Contempt Charge.

WASHINGTON, D. C., Nov. 2.—The unusual proceeding of an arraignment for sentence at the bar of the Supreme Court of the United States will occur two weeks from now, in accordance with an announcement made yesterday in the cases of Joseph H. Shipp of Chattanooga, Tenn., and five co-defendants, charged with contempt. The court denied motions for a rehearing of the cases.

The cases originated in the court's deciding in March, 1906, to consider the appeal of a negro, Ed Johnson, from a verdict of the Tennessee courts holding him guilty and sentencing him to be hanged on a charge of criminal assault. The night after the determination of the Supreme Court to review the proceedings in the case was wired to Chattanooga, where Johnson was confined in jail, a number of persons stormed the jail and took him out and lynched him.

Deny a Rehearing.

The court was much incensed over the lynching, and at its instance the Attorney-General instituted proceedings against Shipp, who was the sheriff, and the jailer and twenty-five others supposed to have been implicated in the lynching, charging them with contempt of the Supreme Court. Many of the accused were exonerated and in the end only six were found guilty. These were Sheriff Shipp, his deputy, Jeremiah Gibson, who was the jailer, Luther Williams, Nick No- n, Henry Padgett and William ayes, residents of Chattanooga.

The finding of the court was announced in May, just before the close of the last term of court, but all the defendants entered motions for a rehearing, which had the effect of postponing action until the present term.

The court yesterday, through Chief Justice Fuller, announced its denial of the motions, the chief-justice stating at the same time the decision to have the defendants appear on Nov. 15 to receive sentence.

It will be the duty of Marshal Wright to present the men in court, but he said yesterday that he expected all of them to appear to hear the court's verdict, which would relieve him of the necessity of going to Chattanooga after them.

The court has the discretion to either fine or imprison the men or to inflict both penalties, and no intimation has been given as to what course may be pursued. It is only known that from the beginning of the proceedings the court has appeared exceptionally interested in the case and is believed to feel that an example must be made to prevent other indignities to the court.

The only instance of a sentence for contempt in the court's history occurred in 1875, when John Chiles, who was concerned in dealings in Texas indemnity bonds, contrary to an order of the court, was ordered to pay a fine of $250 for contempt. This time there will be six men instead of one and the proceedings will therefore be unprecedented as regards numbers.

All the defendants assert innocence. Shipp and Gibson declare there was no advance indication of violence to Johnson and say that otherwise they would have taken better precaution. Most of the other men implicated claim not to have been present when the negro was killed by the mob.

Will Have Big Hunt.

From Wednesday's Daily Sun:

S. Wells, J. D. Dykes and J. E. dson will form a party of North nesville people who leave today the wilds of LaFayette county for a big camp hunt and expect to be absent about two weeks. They will be joined at Judson by C. W. McElroy and the party will at once proceed to the wilds in that section in quest of big game. Being well acquainted in that territory they will be rewarded most liberally, for they claim to know just where to find what they go after.

Mrs. Sagerser, of Missouri.

FACIAL NEURALGIA.

Mrs. C. S. Sagerser, 1311 Woodland Ave., Kansas City, Mo., writes:

"I feel it a duty due to you and to others that may be afflicted like myself, to speak for Peruna.

"My trouble first came after la grippe eight or nine years ago, a *gathering in my head and neuralgia.* I suffered most all the time. My nose, ears and eyes were badly affected for the last two years. I think from your description of internal catarrh that I must have had that also. I suffered very severely.

"Nothing ever relieved me like Peruna. It keeps me from taking cold.

"With the exception of some deafness I am feeling *perfectly cured.* I am forty-six years old.

"I feel that words are inadequate to express my praise for Peruna."

Stomach Trouble Seven Years.

Mrs. T. Frech, R. R. 1, Hickory Point, Tenn., writes:

"Having been afflicted with catarrh and stomach trouble for seven years, and after having tried four different doctors they only relieved me for a little while. I was induced to try Peruna, and I am now entirely well."

ACCIDENTAL KILLING AT SANTA FE TUESDAY

GUN BLOWS J. L. CHESSER'S HEAD FROM HIS BODY.

Was in the Act of Handing the Weapon to a Friend When It Was Discharged.

Information was received here yesterday of the accidental death by shooting of J. L. Chesser, which occurred near Santa Fe late Tuesday evening when he, in company with other employes of the Sutton Lumber Company, were en route to their homes.

Mr. Chesser and his brother had a contract for getting out saw logs for the mill and as was their usual custom went by the mill to report their day's work before going home. J. L. Chesser had always carried with him a small single-barrel shot gun and it was his own instrument which caused his sudden death.

It was stated by the brother of the deceased that just as he went to hand the gun to a Mr. Webb the same was accidentally discharged, the entire load taking away the top of his head, this occurring as the party had left the plant and were en route to their homes a mile or so away from this point. Death was instantaneous.

The affair was deeply regretted by Mr. Webb, but the brother of Mr. Chesser completely exonerated the man, and stated that an inquest was unnecessary, as he was present at the time the accident occurred.

Mr. Chesser leaves a wife and several small children, who reside near LaCrosse. He was a son of "Uncle Dan" Chesser, one of the best-known citizens of that section of the county, and his numerous friends throughout the section sympathize with him in his bereavement.

Funeral services were held over the remains at Antioch yesterday afternoon, when a large circle of friends gathered to pay their last respects to the unfortunate man.

Mayor Reilly of Pensacola has approved the ordinance making the closing hour of saloons 10 o'clock at night and the opening hour 5 o'clock the following morning, thus giving the bar-room men an extra hour in which to do business.

JUDGE GAYNOR ELECTED; TOM JOHNSON DEFEATED

(Continued from Page One.)

overwhelmed the reform opposition to the local Republican organization, electing the latter party's entire county ticket by a majority of more than 43,000 in one of the heaviest votes ever polled. Majorities for the victorious ticket in the State will reach nearly 150,000. The proposed amendments to the State constitution abolishing spring elections were generally ignored, but were adopted by varying majorities.

Louisville's Fight.

Louisville, Ky., Nov. 3.—In the municipal election here the Democrats carried this city by electing W. O. Head mayor by over 2,000 majority. John E. Grinstead, the Republican candidate, has been mayor for two years, and sought re-election. The race issue was the paramount one, there being 10,000 negro voters in the city who supported the Republican ticket. The labor vote rallied to Head in the last days of the campaign, and to them is due the victory.

Owen Tyler, the Independent Democratic nominee, made a very poor showing, as it was generally understood that he was running in order to aid the Republicans.

The good roads amendment throughout the State carried, and the Democrats' have secured a majority in both houses of the Legislature and will likely pass an election law which will aid the Democrats in future elections.

In Famous Feud Town.

Jackson, Ky., Nov. 3.—Although a dynamite bomb was exploded and thousands of shots were fired in last night's wild election celebration, only the walls and plaster were damaged.

D. B. Redwine, Democrat, apparently has carried the county by 350 votes for circuit judge over J. P. Adams, incumbent. Other Democratic candidates for all offices also appear to be leading.

Today the military here was reinforced by the arrival of Lexington soldiers stationed at Crocketsville yesterday. The band of celebrating mountaineers was also increased.

Escaped Convict Surrenders Said He Was Starving

BRUNSWICK, Ga., Nov. 2.—Realizing that his act meant fully fifteen years' service in the Alabama penitentiary Frank Bell, a cotton wearer, 29 years of age, sentenced in June, 1904, for twenty years for killing Frank Stewart, a contractor, in a saloon in Huntsville, Ala., made a full confession one week ago to W. O. Middleton at Waverly, in Camden county, and is in Glynn county jail awaiting the arrival of an Alabama officer. Although he could have escaped any day last week from Middleton's camp in Camden county, Bell remained at the place and voluntarily accompanied Mr. Middleton to Brunswick.

"I was ragged and sick. I had tried everywhere to get work, but no one wanted me," said Bell last night. "I escaped six weeks ago from the State cotton mill at Spangler, Ala., where I was doing time. The guards had counted our squad that night and I slipped out from the ranks and reached the back fence before I was missed. I heard the blood hounds that night, but they were never on my trail.

"I tramped and rode on freight cars and reached Jacksonville, Fla., and tried everywhere for work, but no one wanted me.

"Finally I started back and when I reached Waverly Mr. Middleton took me in, fed me, gave me these clean clothes, a pair of shoes and a decent place to sleep in. I would not have done him dirt by running away, so I just stayed there. I told him to telegraph about me.

"I did not kill Stewart. It was in a shooting scrape. I was shooting at a man named Bailey. They said Stewart came into the saloon just in time to be hit by the bullet from my pistol.

"Yes, I know what it means—fifteen years more anyhow, but I prefer penitentiary to starving and tramping."

Bought Fine Automobile.

M. Venable surprised his friends Saturday by driving into the city from his home at Archer in a fine automobile, and investigation developed the fact that he had purchased the machine, and "felt as big as anybody.

The machine is a Ford, Model T, twenty horse-power, and one of the handsomest yet seen here.

Mr. Venable threatened to purchase a machine in Jacksonville several days ago, but inasmuch as he is a great lover of horse-flesh, and owns a pair of the handsomest steeds in this section of the State, friends thought he was joking. But this proved to be no joke, as the machine is now in evidence.

CURED ITCHING PAINFUL HUMOR

Which had Spread Over Face, Body and Arms—Swellings were as Large as a Dollar—When they Broke, Sores would Not Heal—Suffered 3 Years.

MADE SOUND AND WELL BY 3 SETS OF CUTICURA

"My trouble began about three years ago with little black swellings scattered over my face and neck. They would disappear but they would leave little black scars that would itch at times so I couldn't keep from scratching them. Larger swellings would appear in the same place and they were so painful I could hardly bear it and my clothes would stick to the sores. The first doctor I went to said the disease was scrofula, but the trouble only got worse and spread. By this time it was all over my arms and the upper part of my body in big swellings as large as a dollar. It was so painful that I could not bear to lie on my back at night. The second doctor pronounced my disease inflammation of the lymphatic glands. He stopped the swellings, but when they would break the places would not heal. He tried everything that he could but to no effect. He said I might be cured but it would take a long time. I bought a set of the Cuticura Remedies and used them according to directions and in less than a week some of the places were nearly well. I continued with the Cuticura Remedies until I had used three sets, and now I am sound and well. The disease lasted three years from the time it commenced until I was cured. Before Christmas something broke out on my seven year old brother's hands in the form of large sores. I tried everything I could think of but to no effect until I happened to think of Cuticura and one application cured him. Also, not long ago, my sister got a bad burn on her ankle. I have been using Cuticura on that and it gave her scarcely any trouble. O. L. Wilson, Puryear, Tenn., Feb. 8, 1908."

Warm baths with Cuticura Soap, gentle anointings with Cuticura Ointment and mild doses of Cuticura Pills, afford immediate relief and point to a speedy cure of torturing, disfiguring humors of the skin, scalp and blood of infants, children and adults, when all else fails.

Cuticura Soap (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin and Cuticura Resolvent (50c.), (or in the form of Chocolate Coated Pills, 25c. per vial of 60) to Purify the Blood. Sold throughout the world. Potter Drug & Chem. Corp., Sole Props., Boston, Mass.

Prospective Settlers.

Messrs. Avery, Henderson and Brown, three capitalists of Fort Valley, Ga., were in the city two or three days last week prospecting in farming lands, with a view of making purchases and locating energetic farmers in Alachua county. They were driven over various sections of the county by J. W. Patton, and expressed themselves as being well pleased, declaring the lands as a whole to be the best they have visited so far. They may decide to purchase several tracts in the vicinity of Gainesville.

There's nothing so good for a sore throat as Dr. Thomas' Eclectric Oil. Cures it in a few hours. Relieves any pain in any part.

WORD FROM LIEUT. TAYLOR.

Writes Father From Honolula, Stating That He is Well and Hearty.

Lieutenant H. LeRoy Taylor, U. S. A., who left San Francisco some time ago for the Philippines, where he has been assigned to duty, writes his father, H. E. Taylor, from Honolulu, Hawaiian Islands, under date of October 13th, that he is "well and hearty," and that the voyage so far has been very pleasant.

Lieutenant Taylor is making the voyage aboard the Government transport Thomas, and states that he is associated with the most genial company. The distance covered is not quite half way to Manila, where the party will disembark, but inasmuch as the letter stated that the transport would remain in the port of Honolula for several days, no definite schedule was announced as to the time the Thomas was expected to arrive at destination.

Lieutenant Taylor's numerous friends in Gainesville and throughout the State will be pleased to learn that he is enjoying good health.

A Tiny Baby

Can't tell you in words what the trouble is; but if it's complexion gets pasty, if it gets weaker and weaker, loses flesh and is cross and peevish, you can be certain that it has worms. Give it White's Cream Vermifuge, guaranteed harmless. Expels the worms and puts the baby in a healthy normal condition. Sold by W. M. Johnson.

The pineapple growers of Saint Lucie county are very much interested in the subject of marketing their crops, and an active campaign is being conducted by R. K. Goodwin of Fort Pierce, who is an enthusiastic advocate of the Florida Citrus Exchange. As a result of the campaign five local associations of growers have been formed. The crop of this county is about 600,000 crates.

SPITTING NUISANCE.

Hawking and Spitting Is Caused by Catarrh Germs.

If the local authorities want to stop the disgusting habit of spitting mucous on the sidewalks, they had better instruct the people as to the best method of killing the catarrh germs and curing catarrh.

You can easily tell by reading the symptoms below whether you have catarrh or not:

Offensive breath, frequent sneezing, discharge from nose, stoppage of the nose, huskiness of voice, tickling in throat, droppings in throat, a cough, pain in chest, loss of strength, variable appetite, spasms of coughing, low spirited at times, raising of mucous, difficulty in breathing, loss of vital force.

J. W. McCollum & Co. have a sensible remedy (money back if it fails) for catarrh, called Hyomel, which is a vaporized air so antiseptic that when it is breathed over the inflamed and germ-infested membrane, it kills all germ life and cures catarrh.

The price, including hard rubber inhaler, is only $1.00, and money back if it doesn't cure. Extra bottles, 50 cents.

"I have tried almost every catarrh cure on the market without benefit. Have been using Hyomel for one week and feel like a new man already."—Wm. V. Goode, Newark, Ohio, June 21, 1909.

..BELT PINS..

Buckles are undoubtedly a thing of the past. Some beautiful belt pins are shown in the most elegant designs. Odd shapes with big sets are very popular.

Hat Pins—Of hat pins there are a thousand and one different styles, all of which are worthy. There are pins with metal rims framing jewels of different kinds, and there are pins of metal alone and jewels alone. Silver Hat Pins are good because they go so well with the trimmings used on the hats.

CHANGES BEING MADE.

Improvements in All Sections of the City Go Merrily On.

To see that Gainesville is alive and fully up to all other sections of the State one only has to visit over the city, for in every nook and corner changes and improvements are being made.

Among the largest contracts that are now being worked upon, and which will add to the city, is the handsome new addition W. E. Baker is having made to his home on East Alachua avenue. He is having three rooms added to his dwelling, besides others enlarged, and when the work is completed it will compare with the many other nice homes in that section, while it will prove among the most comfortable.

Dr. M. H. DePass is having the handsome and large Day house on North East Main street remodelled and rebuilt to suit his own convenience. The house will be arranged with all modern improvements and more rooms are to be added.

The old building of S. V. Duke is also being remodelled and enlarged and will contain many more rooms additional when completed. It being located adjacent to the square makes it most easy of access and very valuable property.

Mrs. M. F. Hale is having her home recently purchased on East Main street remodelled and added to. This place being in a particularly desirable section will prove most valuable when the changes and alterations are made.

W. N. Wilson and T. J. McRae are among the latest to have handsome granolithic sidewalks placed around their property on South University street, and this class of work is now being generally contracted for in all sections of the city.

MARRIAGE ON WEDNESDAY..

Prominent Young Gainesville Man Weds McIntosh Lady.

At the Christian church in McIntosh on Wednesday evening at 6:30 o'clock, Mr. Drayton Avera of Gainesville was married to Miss Mary Sue Allen, an accomplished young lady of that place.

Quite a number of his many Gainesville friends went down to witness the ceremony and the church was decorated most beautifully for the occasion by friends of the couple, who will make their home in this city following a short wedding trip.

Mr. Avera is quite popular here and is engaged in the insurance business.

The bride is one of the handsome young ladies of McIntosh and by her amiable disposition has made a host of friends who give her up reluctantly.

WOLF—MORELAND.

WINDSOR, Nov. 2.—Windsor was awakened and a change in the monotony of the village was caused by the sudden arrival Sunday afternoon of a young couple from Prairie Creek in search of Rev. Rape of Rochelle, whose offices they were anxious to obtain.

It being Sunday afternoon, and Sunday school at Wesley chapel just over, they immediately entered the church and soon were made one. The gentleman, H. Wolf by name, was formerly of Kansas City, and Miss Susie Moreland has been making her home with her sister, Mrs. Capell of Prairie Creek.

May long life and happiness attend them.
